

**MINUTES OF THE
HOLLADAY CITY COUNCIL MEETING**

**Thursday, July 13, 2023
Mt. Olympus Room
4580 South 2300 East
Holladay, UT 84117**

BRIEFING SESSION - 5:30 p.m.

Mayor Rob Dahle
Paul Fotheringham
Dan Gibbons
Matt Durham
Drew Quinn
Ty Brewer

City Staff:
Gina Chamness, City Manager
Todd Godfrey, City Attorney
Stephanie Carlson, City Recorder
Jonathan Teerlink, Community Dev. Director

Mayor Dahle reviewed the items on the agenda and discussed the new Planning Commission Members. He explained that two new Commissioners would be appointed Marty Banks from District 1 would be reappointed. Angela Gong from District 4 and Jill Fonte from District 5, would be appointed. Those terms would end on June 30, 2026.

The City Council Members introduced themselves to the Planning Commissioners. Mayor Dahle reported that the City Council does not engage with the Planning Commission often, which was done intentionally to ensure that the roles are separate and remain appropriate. It was important that there not be a perception that there was an intermingling of duties and responsibilities.

Ms. Gong introduced herself to the Council and reported that she wants to invest in the community and better understand what is happening in the City of Holladay. She studied Environmental Sciences as her undergrad and received a Masters in Education and Public Policy. Ms. Gong works as a middle school math teacher. She cares about the City and has a desire to be involved in a meaningful way. Council Member Gibbons thought her educational background would be an asset to the Commission.

Ms. Fonte was introduced to the City Council. Ms. Fonte commented that she has a strong business background. She attended a few City Council Meetings and felt inspired to serve the community more. She reported that her family used to live in Park City and also lived in southern California for a while. When she lived in Southern California, she headed the Disaster Preparedness Committee for the Homeowners Association (“HOA”) she was in. Additionally, she served as President of the HOA as she wanted to contribute where possible.

City Attorney, Todd Godfrey, reported that State Law requires Planning Commissioners to have one hour of training before participating in meetings. That was in addition to the four hours of training that all Commissioners need to take during the year. Mr. Godfrey explained that City Staff will meet with them for the first training and orientation.

**MINUTES OF THE CITY OF HOLLADAY
CITY COUNCIL WORK MEETING**

**Thursday, July 13, 2023
6:00 p.m.
City Council Chambers
4580 South 2300 East
Holladay, Utah**

ATTENDANCE:

Mayor Rob Dahle
Paul Fotheringham
Dan Gibbons
Matt Durham
Drew Quinn
Ty Brewer

City Staff:
Gina Chamness, City Manager
Todd Godfrey, City Attorney
Stephanie Carlson, City Recorder
Jonathan Teerlink, Community Dev. Director
Jared Bunch, City Engineer

I. Welcome – Mayor Dahle.

Mayor Rob Dahle called the City Council Work Meeting to order at approximately 6:00 p.m.

II. Pledge of Allegiance.

Mayor Dahle led the Pledge of Allegiance.

III. Public Comments.

Joan Wolf - 1875 E Baywood Dr and shared comments about the Water Efficiency Standards. Ms. Wolf was supportive of the adoption of those standards. She explained that a xeriscape of her yard was completed in November 2022. She had fulfilled all requirements set by the Central Utah Water Conservancy District (“CUWCD”) that would lead to eligibility for a partial rebate for the cost of conversion. Several other City residents had done the same. Adopting the Water Efficiency Standards would be beneficial to residents new and old. Ms. Wolf reported that standards were adopted by Cottonwood Heights, Millcreek, Sandy, Salt Lake City, Draper, Bluffdale, Magna, Kearns, North Salt Lake, Riverton, South Jordan, White City, West Jordan, and Taylorsville. She read some of the standards that are required by the CUWCD.

Trudy Jorgensen-Price shared updates about the Library and encouraged anyone who has not signed up for Summer Reading to do so. From July 21, 2023, through July 24, 2023, the Library was to be closed for maintenance. Seed Saving 101 was scheduled to take place on July 29, 2023. There would be a Red Cross Blood Drive on August 7, 2023. There would be another installment of the Online Safety and Searching for Seniors on August 12, 2023. On August 26, 2023, there would be a program at the Library called Attracting Native Bees to Your Garden.

IV. Consideration of Resolution 2023-19 - Granting the Advice and Consent of Members to the Planning Commission.

Mayor Dahle explained that two new Commissioners will be appointed and one Commissioner reappointed. Marty Banks from District 1 would be reappointed and Angela Gong from District 4 would be appointed as well as Jill Fonte from District 5. All terms would end on June 30, 2026.

Planning Commission appointments are important because the Commission primarily deals with City Code and Land Use issues. That work is vital to the City. Mayor Dahle was grateful that there are so many passionate residents who are willing to serve. The New Commissioners introduced their family members who were present. Council Member Gibbons expressed gratitude to all of the Planning Commissioners for their service.

Council Member Quinn moved to APPROVE Resolution 2023-19 – Granting the Advice and Consent of Members to the Planning Commission. Council Member Gibbons seconded the motion. Vote on Motion: Council Member Durham-Aye; Council Member Fotheringham-Aye; Council Member Quinn-Aye; Council Member Gibbons-Aye; Council Member Brewer-Aye; Mayor Dahle-Aye. Resolution 2023-19 passed with the unanimous consent of the Council.

V. *Consideration of Resolution 2023-20 – Approving an Interlocal Agreement with Salt Lake County for Animal Services.*

Mayor Dahle explained that it is a five-year contract that is revokable by either party as long as there is at least 180 days' notice.

Council Member Durham moved to APPROVE Resolution 2023-20 – Approving an Interlocal Agreement with Salt Lake County for Animal Services. Council Member Brewer seconded the motion. Vote on Motion: Council Member Durham-Aye; Council Member Fotheringham-Aye; Council Member Quinn-Aye; Council Member Gibbons-Aye; Council Member Brewer-Aye; Mayor Dahle-Aye. Resolution 2023-20 passed with the unanimous consent of the Council.

VI. *Consideration of Resolution 2023-21 - Approving an Interlocal Agreement with Salt Lake County for Traffic Signal Installation.*

Mayor Dahle reported that the above item has to do with a HAWK signal at 4705 South 1495 East that will provide safe movement across Murray Holladay Road for park users and students at the nearby school. The contract was for the installation of the infrastructure. A separate agreement had already been approved to share costs, which meant that Millcreek would reimburse for half of the costs.

Council Member Fotheringham moved to APPROVE Resolution 2023-21 – Approving an Interlocal Agreement with Salt Lake County for Traffic Signal Installation. Council Member Durham seconded the motion. Vote on Motion: Council Member Durham-Aye; Council Member Fotheringham-Aye; Council Member Quinn-Aye; Council Member Gibbons-Aye; Council Member Brewer-Aye; Mayor Dahle-Aye. Resolution 2023-21 passed with the unanimous consent of the Council.

VII. *Consideration of Resolution 2023-22 - Approving an Interlocal Agreement with the Utah Division of Forestry, Fire, and State Lands for Participation in the Wildland Fire Program.*

Mr. Godfrey clarified that this is a one-year agreement. The previous agreement the City signed had a five-year term, but the State had since moved to a one-year term for these types of agreements. As a result, he anticipated that there would be another Interlocal Agreement in the same form next year as well.

Council Member Brewer moved to APPROVE Resolution 2023-22 – Approving an Interlocal Agreement with the Utah Division of Forestry, Fire, and State Lands for Participation in the Wildland Fire Program. Council Member Quinn seconded the motion. Vote on Motion: Council Member Durham-Aye; Council Member Fotheringham-Aye; Council Member Quinn-Aye; Council Member

Gibbons-Aye; Council Member Brewer-Aye; Mayor Dahle-Aye. Resolution 2023-22 passed with the unanimous consent of the Council.

VIII. Consideration of Resolution 2023-23 - Approving an Interlocal Agreement with Salt Lake County for the Construction of Bike Lanes along Portions of Wasatch Boulevard.

City Manager, Gina Chamness, reported that Millcreek and the City of Holladay jointly studied improvements along the entire corridor of Wasatch Boulevard from 3300 South to 6200 South. A plan was developed with public input to make improvements to that corridor that would benefit pedestrian and bicycle traffic. The County awarded funds to both Millcreek and the City of Holladay with the Holladay section costing approximately \$600,000. The Interlocal Agreement allowed the City to receive those funds.

Mayor Dahle asked for additional details about the City of Holladay's portion of the work. Ms. Chamness explained that there would not be a protected bicycle lane in Holladay due to the narrow widths. City Engineer, Jared Bunch, confirmed this. He shared information about the high-level maps. Ms. Chamness stated that there was a small matching portion that was already incorporated into the budget. There was some more work to do to make sure the entirety of the plan could be built, so that was still to be determined. She added that the Funding Agreement stipulated that the improvements needed to be made within three years.

Council Member Fotheringham moved to APPROVE Resolution 2023-23 – Approving an Interlocal Agreement with Salt Lake County for the Construction of Bike Lanes Along Portions of Wasatch Boulevard. Council Member Brewer seconded the motion. Vote on Motion: Council Member Durham-Aye; Council Member Fotheringham-Aye; Council Member Quinn-Aye; Council Member Gibbons-Aye; Council Member Brewer-Aye; Mayor Dahle-Aye. Resolution 2023-23 passed with the unanimous consent of the Council.

IX. Consent Agenda.

a. Approval of Minutes – April 6 and 20, May 4, 11, and 18, and June 1, 2023.

Council Member Durham moved to APPROVE the Consent Agenda. Council Member Fotheringham seconded the motion. Vote on Motion: Council Member Durham-Aye; Council Member Fotheringham-Aye; Council Member Quinn-Aye; Council Member Gibbons-Aye; Council Member Brewer-Aye; Mayor Dahle-Aye. The motion passed unanimously.

X. City Manager Report – Gina Chamness.

Ms. Chamness shared updates with the Council and acknowledged that the Fourth of July Celebration took place. There were approximately 1,000 people at the breakfast over a 2 ½ hour period. There was also a Bicycle Parade with approximately 150 participants. The crowd estimates overall were approximately 10,000. It was much larger than it had been in the past. Ms. Chamness thanked City Staff for all of their work as well as partners at the Unified Police Department (“UPD”) and Unified Fire Authority (“UFA”). A lot of work went into the celebratory events.

Ms. Chamness reported that the Transportation Subcommittee of the House Appropriations recommended \$3.6 million for the Highland Drive Reconstruction Project. She thanked Representative John Curtis for sponsoring the request as this was a significant amount of assistance. Ms. Chamness explained that the project is large and the estimates were in the \$30 million range for all components. The \$3.6 million would be for pre-design work and right-of-way acquisition. She did not believe there was a match needed for any of that work. At some point, she believed the City

would need to contribute to some of the costs, but was not sure what the total amount would need to be.

XI. Council Reports and District Issues.

Council Member Gibbons reported on the I-215 Shared Use Path Working Group and the meeting about traffic issues at Oakwood Elementary. Council Member Gibbons noted that there had been concerns expressed by residents adjacent to the hotel development, which was nearing completion. There was a hope that before occupancy was issued, the developer would be required to fulfill all legal requirements. There were concerns about the asphalt in the access roadway. Additionally, the walls on the east had not yet been constructed and there was an issue with parking lot lighting. It seemed that there was an opportunity to ensure that all of the legal requirements were completed before occupancy was issued.

Council Member Quinn felt that the Fourth of July celebration was wonderful. She noted that her granddaughter was on crutches and he had been able to see firsthand how much easier it was for her granddaughter to navigate the playground on crutches. Council Member Quinn liked the fireworks show, but two constituents had contacted her asking why the personal fireworks ban had not been lifted. She explained to them that the decision had to be made early in the spring and the conditions were not known at that time. A lot of residents supported the ban, but there were some who wanted to have personal fireworks as well.

Council Member Quinn shared information about the Community Renewable Energy Agency. She explained that the Board was sent a copy of the Utility Agreement that would be voted on during the next Board Meeting. It was essentially the agreement between the agency, the customers, and Rocky Mountain Power. Assuming the agreement passed at the Board level, the City Council would vote on it during the August 17, 2023, meeting.

Council Member Fotheringham praised the Fourth of July celebration and the first Arts Council concert. There was another concert scheduled for Saturday that he was looking forward to. The Arts Council was in full swing with the summer activities and he encouraged residents to attend. Council Member Fotheringham thanked Mr. Bunch for his assistance with some parking issues around the Cottonwood Country Club. There were two homes being constructed and those construction trucks were often on both sides of the road. That created difficulties for anyone trying to move through.

Council Member Durham had received a lot of feedback from residents about the Fourth of July celebration. Everyone was really impressed with the quality of the events. Council Member Durham thought it would be interesting to discuss options for the property located at 1770 Holladay Blvd because he had heard a lot from his constituents about the area.

Council Member Brewer reported that he serves on the Board for the South Salt Lake Valley Mosquito Abatement District. He discussed the way mosquito density was measured. He was not sure how educated residents were about what the Mosquito Abatement District did, but a lot of work was done. Council Member Brewer wondered whether information was shared on social media. It was noted that sometimes, Council Members had submitted articles based on information from the District.

Council Member Brewer had received a negative comment about the Skate Park earlier in the day. The constituent mentioned that a lot of people visit from outside the City and there is loitering nearby.

He believed that it was important to be respectful of the area. Council Member Brewer believed the skate park was a wonderful amenity that benefited many residents in the community, but it was necessary to consider all of the feedback that was received about the use and the impacts.

Mayor Dahle was not sure how to address the issues raised by Council Member Brewer. Most of the visitors to the skate park were wonderful, but it was possible that not all were. It was something that would need to be monitored. If there were continued issues, there would likely be a debate about whether the skate park lighting would move forward.

Mayor Dahle asked about the September marathon. He wanted to know whether the organizers had resolved their issues with Murray related to the finish line. UPD Police Chief, Justin Hoyal, reported that there had been a meeting with the race organizers earlier that day. There were ongoing discussions with Murray, but it was not expected that there would be any issues. A final meeting would take place in mid-August with all entities involved to ensure that the marathon went well.

Mayor Dahle thanked the UFA for their recent work. There was a large fire in a geographically difficult area, but UFA ensured that the fire was contained and did not impact any other residential homes.

XII. Reconvene City Council in a Work Meeting.

Council Member Fotheringham moved to RECESS the Holladay City Council Meeting and RECONVENE in a Work Meeting. Council Member Gibbons seconded the motion. The motion passed with the unanimous consent of the Council.

a. Moderate-Income Housing Report

Economic and Housing Manager, Ann Garcia, shared information related to the Moderate-Income Housing Report. In response to the Senate Bill (“S.B.”) 34 requirements that municipalities adopt strategies aimed at encouraging affordable housing, the City was required to submit an annual update about the progress made in furthering the Moderate-Income Housing Plan. Holladay had chosen to focus on six different strategies. Ms. Garcia reviewed the six strategies. She explained that the City is required to report on at least three of the strategies. The three that the City had done the most work to report on were H, P, and O.

- Amend land use regulations to eliminate or reduce parking requirements for residential development where a resident is less likely to rely on the resident's own vehicle, such as residential development near major transit investment corridors or senior living facilities (H);
- Apply for or partner with an entity that applies for State or Federal funds or tax incentives to promote the construction of moderate-income housing, an entity that applies for programs offered by the Utah Housing Corporation within that agency’s funding capacity, an entity that applies for affordable housing programs administered by the DWS, and the entity that applies for affordable housing programs administered by an association of governments established by an interlocal agreement until Title 11, Chapter 13, Interlocal Cooperation Act, an entity that applies for services provided by a public housing authority to preserve and create moderate-income housing, or any other entity that applies for programs or services that promote the construction or preservation of moderate-income housing (O);

- Demonstrate utilization of moderate-income housing set aside from a community reinvestment agency, redevelopment agency, or community development and renewal agency to create or subsidize moderate-income housing (P).

The 12-month performance reporting period started on August 1, 2022, and ended on July 21, 2023. She shared additional information about affordable housing and how that is defined in terms of monthly housing costs. She reported that fair market rents increased between 2022 and 2023 by \$200. For a one-bedroom apartment, it would be \$1,258, which was \$200 more than the year before. Rents had been increasing.

Council Member Fotheringham asked if the moderate-income housing measurement was based on the average income for the County or for Holladay residents. Ms. Garcia clarified that it was based on the County numbers. Council Member Fotheringham expressed concerns that the numbers are not based on the median income in the City of Holladay. Council Member Quinn asked about rents in the City as opposed to the County rents. Ms. Garcia explained that research was currently being done on that.

Holladay has 11,846 housing units. 25% of the households in the City are paying more than 30% of their income towards housing costs. Mayor Dahle believed most communities would have similar statistics. A lot of people were likely paying 30% toward housing each month. He did not think that Holladay stood out in that regard. Ms. Garcia confirmed that Holladay is not necessarily higher than other areas, but it was a piece of information that needed to be considered by the Council.

Ms. Garcia further discussed the strategies that had been chosen. For strategy H, there were some items that had been found to report on, such as off-street parking. The City was required to discuss barriers for each of the strategies as well in the report. Some concerns in that instance were related to compatible parking spaces. For strategy O, the positive progress was highlighted, which included coordination with the County. Some of the barriers related to land ownership. For strategy P, examples had been shared about the conversations there had been about development. There was also a desire to develop a study on higher-density developments. Some barriers had been identified based on the conversations that had occurred, which were highlighted within the document.

Council Member Fotheringham asked about the Legislative Session. Mr. Godfrey reported that there had been a shift in the Legislature, where cities needed to show definitively what was being done to address moderate-income housing rather than simply making a plan to address moderate-income housing. He believed DWS was now looking for more objective information and was trying not to evaluate information in a subjective manner. Holladay wanted to improve the moderate-income housing situation, but he acknowledged that the City had greater barriers than a lot of other cities. For example, there were no transit locations that supported moderate-income housing. Additionally, Holladay was in a redevelopment state. A more objective evaluation would support the compliance efforts moving forward. The Council discussed potential future requirements and compliance. Mr. Godfrey reported that there had been a lot of discussion about parking requirements at the State level.

Mr. Godfrey pointed out that it was difficult to implement affordability at the local level. The City did not build the housing and did not have the funding to subsidize. As a result, there was only so much that could be done to encourage affordability within the community. It was possible to reduce

regulatory barriers, increase efficiencies, and encourage more housing inventory. He reiterated that the City of Holladay is doing everything possible to encourage positive changes within the community.

Mayor Dahle acknowledged that moderate-income housing is a difficult issue. There was a desire to increase the amount of affordable housing stock available, but there were limitations at the city level. It was a difficult issue to solve, but there were additional barriers within Holladay to consider. Council Member Gibbons pointed out that the Legislature often had a moving target. It was difficult to know how the current requirements would change next year or the year after. Mr. Godfrey stressed the importance of State Legislators speaking out so the requirements would remain the same for at least a few years. A lot had been done from a land use perspective in the last three years.

Ms. Garcia was thanked for sharing information.

b. *Discussion on Options for Property Located at 1770 Holladay Blvd.*

Mr. Bunch reported that the City purchased property at 1770 E Holladay Blvd for the purpose of flood mitigation. On the property, there are three structures consisting of the main house, the cottage house, and the garage/apartment with access to the property was off of a driveway on Holladay Boulevard. The property is behind two others and set back. The gully that flooded was identified on a map of the area. It flooded the cottage several feet and the main house basement several feet. Mr. Bunch explained that the purpose of the discussion was to consider the demolition of the structures. He was seeking approval from the Council to proceed with that work. Options for the use of the property would not be presented during the current meeting as there was a desire to remove the structures first.

Council Member Durham asked about the condition of the property and what the timeline would be. Mr. Bunch wanted to see the demolition done before or during the fall season. The property is not currently being maintained, which means there were weeds and uncontrolled vegetation. One of the options was to let that naturally restore itself into a natural vegetative condition once the demolition was done. Mr. Bunch explained that the Council could decide whether there was a desire to leave the concrete foundations or demo them as well. Council Member Gibbons did not think there was a reason to leave the concrete foundations. Mr. Bunch pointed out that some costs could be saved if the foundations are left since the ultimate purpose had not been determined. He clarified that the foundations would not be reused. Mayor Dahle felt it made sense to remove the foundations.

Mr. Bunch shared a slideshow with photographs of the property. The photos were taken in April. He reminded the Council Members that the vegetation had continued to increase since that time. The last time flooding occurred on the property was in 2021. Additional information about the property was shared and discussions were had about potential historic value. If the Council was on board with the demolition, a Request for Proposal (“RFP”) would be issued and the contractor could be selected for the demolition. Council Members expressed their support for the demolition on the property.

c. *Discussion on Bond/Space Projects.*

• *ADA Ramp.*

Mr. Bunch reported that the City Council was approached last fall about two options to replace the ADA ramp. The main reason the ramp needs to be replaced was because there was a plan to do a significant remodel to City Hall. During the previous discussions, the Council indicated that there was a desire to reconstruct both structures. Staff was directed to add thermal heat to the concrete in

the steps and any portion of the top platform that is not covered. The ADA ramp would not be heated. Mr. Bunch was looking for feedback from Council Members, especially about the powder-coated railings. For instance, the color and style of the powder-coated railings. The design showed the power-coated railing would match the existing railing. He further reviewed the design documents.

Mayor Dahle wondered if the slope of the ADA ramp was the issue. It was clarified that the width of the ramp needed to be adjusted. The current width of the ramp is not ADA-compliant in a few different spots. According to the design, there would be a seven-foot platform at the top to maneuver. In terms of access, it might be limited during the actual construction period. Ms. Chamness asked about the timeline. Mr. Bunch believed it would be between three and four weeks. The existing color of the railing was discussed. Council Members were supportive of the existing color for the railing.

- ***Phase 1 of City Hall Seismic Upgrades.***

Ms. Chamness reported that approximately one year ago, it occurred to City Staff that it might be worthwhile to focus on City Hall. The first portion of the discussion related to a City Hall Seismic Study. Mr. Bunch reported that City Hall did not have any documented history of seismic damage. The building was briefly closed in 2020 following a 5.7 magnitude earthquake that originated in a city approximately 19 miles away. No damage was recorded from that event, but due to the construction of the building, City Staff was unable to determine if cracks had occurred within covered portions of the building walls. He shared additional information about the City Hall building.

The City Hall Building was constructed in four phases and has two construction types. The 1928 original construction and the 1936 additional were framed with wood carpenter-built roof trusses. The floors were framed with dimensional lumber and unreinforced masonry (“URM”) walls. The 1946 and 1951 additions had a concrete tee or pan roof and floor framing with URM walls. The building was historically used as a public school, but in the early 2000s, the City purchased the property and repurposed it as a City Hall. There was a fifth addition that met current seismic codes.

Mr. Bunch reported that an RFP was released for engineers who specialize in Seismic Studies and a firm was selected. He explained that seismic criteria were defined by frequency. There were two levels evaluated in the assessment, which included:

- One for small and frequent earthquakes (BSE-1E); and
- One for larger and less frequent earthquakes (BSE-2E).

BSE-1E represented an earthquake with a 20% probability of exceedance in 50 years (225-year return period) and BSE-2E represented an earthquake with a 5% probability of exceedance (975-year return period). The seismic evaluation identified 17 structural recommendations and four non-structural recommendations to mitigate the safety hazards and preserve life. The notable upgrades were to reinforce the shear walls, connect the roof to the walls, and connect the floors to the walls. Mr. Bunch noted that there were cost estimates included as part of the evaluation. The estimates totaled approximately \$1.1 million. However, that excluded certain items. He had reached out to a masonry contractor who specialized in restoration and preservation. According to the contractor, there were some difficulties reinforcing the walls enough without filling some of them in. After a lot of discussion and considering some different options, it was suggested that there be a focus on the two bearing walls that ran the length of the building down the hallway. Pricing had been obtained for that

work. The final cost estimate will be brought to the Council during a meeting next month. However, based on some estimates received, he believed the total would be under \$2 million.

The Council discussed the work that would be done on the building. Mr. Bunch pointed out specific walls where work would likely occur. Council Member Gibbons believed the seismic upgrade would not necessarily save the building, but would save lives in the event of an emergency situation. This was confirmed. Mr. Bunch pointed out that the building would likely not be lost, but repairs would be needed in the event of an emergency situation. The Council further discussed the timeline and the work that needed to be done. Ms. Chamness hoped that it would be possible to obtain some funding for the seismic work. Mr. Bunch clarified that the City was waiting for a complete cost estimate for all of the work. Ms. Chamness informed the Council that additional information would be available at a future City Council Meeting. Mayor Dahle noted that it would be possible to make City Hall more efficient.

d. Calendar

- ***Council Meetings – August 17, September 7 and 21, October 5 and 19, November 2 and 16, and December 14.***
- ***National Night Out – August 1 from 6:00 to 8:00 p.m.***
- ***Friend-Raiser Event – August 5 from 6:30 to 7:45 p.m.***
- ***Concerts in the Park – Saturdays in July and August.***
- ***Blue Moon Festival – August 26.***

The calendar items were reviewed and discussed. Chief Hoyal shared information about the National Night Out. It would take place on August 1, 2023, from 6:00 p.m. to 8:00 p.m. There would be participation from the City Council, UFA, and even an Eagle Scout doing an Eagle Scout project. There were also partners from Happy Healthy Holladay who would participate in the event. Discussions were had about the Friend-Raiser event, which was scheduled for August 5, 2023.

XIII. Adjourn.

Council Member Fotheringham moved to ADJOURN. Council Member Gibbons seconded the motion. The motion passed with the unanimous consent of the Council.

The City Council Meeting adjourned at approximately 8:30 p.m.

I hereby certify that the foregoing represents a true, accurate, and complete record of the Holladay City Council Meeting held Thursday, July 13, 2023.

Stephanie N. Carlson, MMC
Holladay City Recorder

Robert Dahle, Mayor

Minutes approved: September 7, 2023
